## FROM THE bethel town office

The Board of Selectmen met in regular session Monday evening, May 11, at the Bethel Savings Bank and acted on a long and varied agenda.

A public hearing was held on the renewal application from the Bethel Inn and Country Club for an entertainment permit. No one was present to speak regarding the application and the Board approved the application.

A second public hearing was held concerning the establishment of parallel parking on the east side of Main St. from Chapman St. to the Methodist Church and the changing from diagonal to parallel parking on the west side of Main St. from the entrance to the IGA parking lot to the Bethel Spa Motel. A Main St. merchant, John E. Grover, was present to question why the change was being proposed. Board Chairman Stanley Howe explained that it was the opinion of the Board that the change would improve traffic safety in the area as well as add two additional parking spaces. No other members of the public spoke regarding the proposed change and the Board approved the amendment to the traffic ordinance to be effective by Memorial Day or as soon as the painting of parking lines could be completed.

## BETHEL TAXPAYERS ASSN. MEETING TONIGHT (MAY 14)

The Bethel Taxpayers Association meeting will be held tonight, Thursday, May 14, at 7:30 p.m. at the Bethel Savings Bank.

Items on the agenda will include: a report by the Association's president, John Gray, on his meeting with the assessors; discussion regarding the separation of the assessor and selectman position; B.T.A. members' suggestions on how the town can save money; and an initial study on the present and future structures of Bethel's public utilities.

A town meeting is scheduled for September and the Taxpayers' Association feels some items might be included at that meeting, so all members are urged to attend this evening's session.

## NEW ATTRACTIONS PLANNED FOR '81 MOLLYCOKETT DAY

The Bethel Rotary Club has announced that they will be sponsoring several attractions at this year's Mollycokett Day, July 18. Something new on the program will be a Western Maine Music Festival, to take place in the afternoon. This is being planned and chaired by Joe Robiller, who encourages all musicians in the area to register for this event. Bands, singles, duos—all with a little music in their souls—are invited to participate. Trophies and prizes will be awarded for the best in country music!

Again this year the chicken barbecue will be served from noon throughout the afternoon. It promises to be better and bigger than ever under the direction of Jim Monahan. Rotary Auction is already well planned and they are accepting donations at any time. Just call Bob Chadbourne for pick up. A special feature of the auction this year will be a "prior to auction tag sale". Many items will be arranged on tables early on Mollycokett Day, price tagged, and sold before reaching the auction block. This will be a good opportunity to pick up those things it's hard to wait for throughout an auction, so it would be wise to be there on the Common, Mollycokett Day.

## CONGREGATIONAL CHURCH TO MEET CANDIDATE MINISTERS

On May 17, Reverend Brendon Bass and Reverend Jean Bass will be the guest preachers at the West Parish Congregational Church, as they come to be considered as the principal candidates for the pastorate of this parish. Unique in the 185 year history of Bethel Congregational Church, if accepted, the Bases will be the first to be co-pastors of the church. They presently live in Lake City, Mich.

A co-pastorate is a fairly new concept. For this church it will mean that one position will be filled by two ordained ministers, not a minister and his wife.

Brendon Bass has been serving a yoked parish in Lake City and McBain, Mich., since 1975. He is an ordained Presbyterian minister and received his divinity degree from the Boston University School of Theology in 1974. Jean Bass is an ordained United Church of Christ minister presently serving as an interim minister in a Congregational church in Cadillac, Mich. She received her Master of Divinity in 1976 from Andover-Newton Theological School. Both come to Bethel with very high recommendations from other clergy and laymen.

Following the worship service on May 17, the membership of the church will assemble in the sanctuary for a special meeting to decide on formally calling the Bases to be the co-pastors of its church.

Mrs. Mary B. Tripp, Tax Collector, placed Tax Liens totaling \$561.60 on seven parcels of real estate on which the 1980 taxes had not been paid, Thursday, May 7. These liens represented approximately one half of 1% of the total commitment of \$109,093.40. There were six non-resident liens, totaling \$435.50 and one resident, \$126.10. At the close of the books Dec. 31, \$6,502.34 in taxes remained unpaid, or slightly more than 6%. These liens mature in 18 months. Last year \$1,473.82 in liens were placed, or nearly 1.6% of the 1979 commitment, \$3,069.73 in liens were paid during 1980, and \$1,145.60 in prior years liens remain unpaid.

Miss Marlene Patterson, Bethel, was guest of honor at a bridal shower, Saturday, May 2, at the home of Mrs. Warren Powers. Co-hostesses were Sandra and Miranda Powers. **deferred**  
The Assessors have met and completed work on the 1981 valuation. Total valuation was \$3,720,050, with an assessment ratio of 100%. This is an increase of \$328,250 over last year. \$211,967 of this increase is due to increased rates for land under Tree Growth. These rates are set by the State. Total resident valuation was \$3,176,950, non resident \$5,543,100. Of this amount \$8,253,100 is real estate and \$466,950 personal estate. Representatives of the Boise Cascade Corp. met with the assessors to discuss acreage classifications filed by them under the Tree Growth Tax Law, on land they had recently purchased from the Brown Company. It was decided to confer with John O'Donnell & Associates, who made the Newry Tax maps, and if necessary put on a supplemental tax later. Even with the increase in tree growth rates, there was a loss in valuation of \$1,039,724 under Tree Growth. The tax rate cannot be set until the County Tax bill and the M. S. A. D. #44 assessments are received, but the rate has been estimated at between \$13.40 and \$14 per thousand of assessed valuation. The 1980 rate was \$13 per thousand.

A dark, drizzly Monday morning and as far as I know the Go-Shoes will be home but there's no time to hang 'em on the hook between trips. I wish this would turn into a nice steady rain for at least 36 hours, how things would come and grow. It's so cold nights nothing can grow and especially when it is so dry. ## Superintendent's Newsletter

Dr. Wayne F. Gersen

At a time when the curriculum of S. A. D. #44 is focussing on basic skills, and a time when funds are scarce, it may seem unusual for our school district to be introducing computer science into its program of studies. A glance at the business section of any newspaper or the cover of any educational journal, however, should make it clear that computer programming is a basic skill and computer hardware is not as costly as one would suspect.

The expansion of computers into our everyday life is well documented. Many local businesses use computers to maintain accounting records and inventories, virtually all of the billing done by credit card companies is managed through data processing, and many of the solicitations you receive through the mail arrive because your name has been gleaned from a computerized mailing list. The computer industry has an even more pervasive impact on the job market. In a recent 35 page list-

ing of want ads in a metropolitan newspaper, 30 pages contained job opportunities requiring computer related skills. Current projections indicate that within five years three out of every four jobs in the United States will be in computer related fields.

The expansion of computers into our everyday life is being stimulated by the dramatic drop in the price of micro-computers. Micro-computers, which are identical to their larger counterparts except for their memory capacity, are now available for less than \$500. The price of some of the limited memory units is projected to plummet under \$100 within the next five years, making them available to many consumers.

Computers, then, will be increasingly important in the future, and learning to use computers will be an important skill for our students to master. To date, our district has purchased three micro-computers using Adult Education funds generated through state reimbursement. As the value of computers in the classroom becomes apparent more computers may be acquired to help provide our students with an essential survival skill for the future.

## Greenwood City

— Mrs. Colista Morgan, Corres. —

The mute silence of night broke to welcome the dawn. New light flashed upon the day. A blue heron banked and came to the pond's edge seeking his breakfast. His background was beautiful for the pond and sky were like double mirrors reflecting the mountains and red buds of the maples.

Grass was greening everywhere. At this time of year we greet the sun at dawn and the day begins with a song.

"The earth spreads forth her glory

For all mankind to see . . .  
A living majestic portrait,  
Of peace and tranquility."

Ten years ago on this date May 7, 1971, we gathered for a party for our neighbor and friend, Edla Tamlander, on her 76th birthday. Each year we have done the same. This week she was 86 and several of us again greeted her, but this time as two previous years, we went to "Ledgview" in West Paris.

Her daughter, Helen, was there to greet us and to serve one of her delicious cakes.

At first her eyes were like brimming lakes that filled to overflow for she remembered her old friends and her home among us here in Greenwood City. But soon her smiles came through as we talked of many things. Her smile seemed to say hello and how are you today. It seemed to pick her troubles up and push them away. She doesn't grow old and even though she has had surgery on each hip, she walks well in doors and out.

Edla W. Lheliimiina Laaksonen Tamlander was born May 7, 1895 at Ruonmar Kyla, Lapin Pitaja, Turun ja Porin Laani, Tuomi, Finland. She came to this country at about the age of 14 but stayed only long enough to earn the price of a ticket to return to her home in

Finland. She came again to America in 1921 and has lived here ever since.

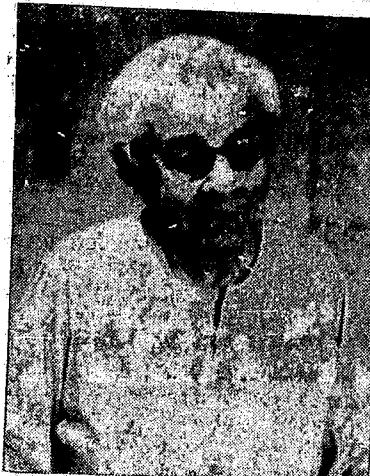

Her young years were busy for she at times cooked for as many as 80 men in lumber camps where her husband also worked. Other interests were her gardens, both vegetable and flower growing and beautiful house plants.

Children have always loved her for she shares their problems and their joys.

Edla has two daughters, Lempi Cyr, of West Paris, and Helen Heath of Norway; seven grandchildren, and six great grandchildren. A granddaughter graduates from Oxford Hills and a great granddaughter from Telstar in June of this year.

Time passed and we left with our best wishes; Edla, may your special day be blessed with all that makes you happiest.

"A Mime's Eye View" is a mixture of mime, vaudeville and theater. In addition to performing "A Mime's Eye View" is a mixture of mime, vaudeville and theater. ## INCREASE IN OVERDUE BOOK FINES AT BETHEL LIBRARY

At the annual meeting of the trustees of the Bethel Library Association it was voted to increase the fines for overdue library books to five cents a day for adult books, two cents a day for children's books beginning on June 1, 1981. For many years these fines have been two cents a day for adults and one cent a day for children, rates which seem unrealistically low under present conditions.

It is hoped that a higher fine will stimulate prompt return of borrowed books. Books can, of course, be renewed after the regular two week period. If for some reason you are unable to come to the library during regular working hours, the library telephone number is 824-2520 and a call to the Librarian will take care of the problem.

Even in these inflationary times this is one increased cost which can easily be avoided by promptly returning all books borrowed. The library would always rather have the book back on time for other borrowers than the income from fines.

## FROM THE TOWN OFFICE

continued from Page One

The Selectmen discussed at length the proposed policy guidelines for the administration of the Fireman's Relief Fund and adopted the following policy:

Purpose—It shall be the purpose of the Bethel Fireman's Relief Fund to provide financial assistance to members of, or families of members of, the Bethel Fire Department or other persons called to duty, in the event of injury, sickness, or death resulting from activities of the Fire Department. For the purpose of these guidelines, the word activity shall include: all firefighting calls, meetings, training sessions, fund raising events, and all other meetings or events officially sanctioned by the Bethel Fire Department including going to and from activities. Fund monies may also be used to assist department members, or families of department members, in cases of unusual incapacity or exceptional hardship.

Administration—The fund shall be administered by the Town Treasurer who shall invest monies in the fund in accordance with state laws regarding the investment of municipal funds.

Payments—the members of the Bethel Fire Department shall recommend, by majority vote, the amount of all expenditures from the fund. The Board of Selectmen shall approve all proposed expenditures.

The Selectmen met jointly with the Planning Board to discuss activities and concerns of both Boards. Items discussed for the Planning Board to devote attention to were the update of the Comprehensive Plan, work on a Hazardous Waste Ordinance to be considered at a Special Town Meeting Sept. 15, a citizens survey, and regulations regarding earth removal.

The Selectmen discussed procedures for the deferred compensation program adopted at the annual town meeting which will be set in motion as of June 1 with employees selecting their own company.

At 8:30 the Board met with the Community Safety and Law Enforcement Committee with discussion centering around policing of the Main St. area. Chairperson Barbara D. Brown stated that the committee had met with Oxford County Sheriff Alton Howe and local law enforcement officers and had discussed Main St. problems with them. Additional police protection on weekends was discussed and the Manager indicated he was working with Sheriff Howe to develop an agreement for contract with the Sheriff's Department for additional part-time officers.

The Selectmen thanked the committee for their work and assistance with this problem area. The Board held preliminary discussions regarding alternatives for possible assessment reorganization and agreed to continue discussion pending the gathering of additional information.

The Selectmen reviewed correspondence from Rep. Karen Brown regarding the previously discussed Bethel Water District charter changes. The Board requested that Rep. Brown be contacted to present a proposed document which would be the basis for a local referendum to let the voters decide the number of trustees, the selection process, and recall provisions.

The next meeting of the Board of Selectmen will be Monday evening, May 18. Agenda items will include: application for a renewal liquor license for "Mothers", the consideration of renewal of victuallers, innkeepers and lodging house licenses, consideration of the 1981 Sewer Department Budget, a meeting with the Water District Trustees, and routine items.

The Budget Committee met Wednesday evening, May 13, at the Fire Station to review the warrant for Special Town Meeting to be held Tuesday, May 19, at 7 p. m. in the Telstar Auditorium. After considerable discussion the Committee voted to recommend the appropriation of \$2,260 for the purchase of pagers for the ambulance service; an appropriation of \$800 to allow renovations and the purchase of equipment for the ambulance service at the S.A.D. #44 bus garage, and to recommend that the town authorize the Selectmen to permit S.A.D. #44 to cut and use firewood, in such quantities and under such conditions as the Selectmen may determine, from the Town Farm property as partial or total annual compensation for the Town Ambulance Service's use of a portion of the S.A.D. #44 Bus Garage.

Mime's Eye View", Tony will be Gould's Commencement Day speaker at the Academy's graduation exercises on Saturday, May 30. This makes his second such appearance having previously spoken to the graduates in 1978.

"A Mime's Eye View" is open to all the public with a small donation being collected at the door. CARD OF THANKS

I wish to express my appreciation to all my friends and neighbors for their cards and well wishes while I was in the hospital. Thank you for your thoughtfulness.

#### How to Remove a Fish Hook

To remove a fish hook from the skin—if only the point of the hook enters not penetrating deeply to allow the barb to become effective, the hook can easily be removed by backing it out. However if the hook goes deeper and the barb becomes imbedded it is wise to have a physician remove it. If medical help is not available push the hook through until the barb protrudes, using a cutting tool cut the hook through at the barb or shank and remove it. Cleanse thoroughly. Cover with sterile dressing. Seek medical attention as soon as possible because of the possibility of infection.

Something Lovely  
Let me find something lovely when I wake—  
Not a rich garment that I may put on,  
Or something valued for value's sake,  
But something lovely when these things are gone,  
Perhaps a whistle by a passing boy,  
Perhaps a letter from an absent friend,  
Something to fill my little cup of joy until day's end.  
Let me bring something lovely when I come—  
No matter where, no matter whose the door,  
Not something lovely that is valued more;  
Perhaps a smile, perhaps a word of cheer,  
Perhaps a high resolve my best to do  
Something to last when even night is near and day is through.  
Let me leave something lovely when I go—  
Not something that I jostled men to win,  
Not something valued for the value so,  
But for some loveliness that lies within;  
Perhaps a garden or perhaps a book,  
Perhaps a gentle daughter, manly son;  
For then how lovely even night will look  
When day is done.

May 10-16, 1981

#### HISTORICAL SOCIETY HEARS SLIDE LECTURE ON BETHEL'S ARCHITECTURAL HERITAGE

In honor of Historic Preservation Week May 10-16 the monthly meeting of the Bethel Historical Society featured a slide lecture on Bethel's architectural heritage by George Allen of the Oxford County Historic Resource Survey. Allen began his presentation with an illustrated discussion of early buildings in Bethel's past from the late 18th and early 19th centuries. Many of these were capes but houses like the Dr. Moses Mason House have all the attributes of the Federal period of architecture which extended in this area from 1775 to 1830. Allen noted that Bethel has some very fine Greek Revival buildings including several on Broad Street. Other styles, Italianate, Gothic Revival, Colonial Revival, Shingle Style, Queen Anne and bungalow are all part of Bethel's architectural heritage and it is important Allen noted that they be retained since these structures will illustrate the community's history and sense of place.

During the business portion of the meeting, Vice President Donald Bennett announced that the gift of the month was 100 song-

books with the BHS monogram on the cover, the gift of Donald and Arlene Brown. These were used for the first time when all sang, "This Is My Country". A moment of silence was observed for member Phyllis Williamson who died during the preceding week. Donald Eddy, Judith Haskell, Harry Kuzyk and Ernest Perkins were appointed to a committee to revise the constitution to include the addition of two more trustees. Society Director Stanley Howe reported on the progress of the reprint of the Bethel History indicating that the two new indexes (name and general) has been sent off to the publishers and that the interpretive essay on Bethel since 1891 was being completed this month. Ronald Snyder of the Indian Raid Bicentennial Committee spoke briefly about the exhibits for the event and requested assistance and possible display items. Members were reminded of the Faye Taylor Memorial Art Show on May 23-24 and the Moses Mason Birthday Party May 24. The next meeting will feature a program on Bethel's haunted houses with two films "In Search of Ghosts" and "Bluenose Ghosts" also featured. A social hour followed the program.

**AWARD PRESENTED**—On May 4, Ed Friel, Howard Donahue, Pat Murphy and Peter Anderson of the Bethel Lions Club traveled to the Skowhegan Lions Club and presented an outstanding achievement award to former Bethel Lion Maurice Bouchard, left above, with King Lion Friel. Maurice now lives in Norridgewock but has transferred into the Skowhegan Lions Club.

#### GOULD ACADEMY TO PRESENT "THE MATCHMAKER"

Coming Friday and Saturday, May 15 and 16 to the Bingham Hall Auditorium at Gould Academy, will be the hilarious and uproariously funny comedy, "The Matchmaker," Thornton Wilder's four act farce, takes place in New York. The musical comedy, "Hello Dolly," is based on "The Matchmaker."

The play is the story of a Yonkers merchant, (played by Lee Schroeter, Buzzards Bay, Mass.) who is now so rich that he decides to take a wife. To aid him in his search he hires a matchmaker, (played by Sarah Ovenden, Cornwall, N. Y.) a shrewd and conniving widow who promptly takes things into her own hands, creating havoc with his two clerks, (Tony Hanson, Rowley, Mass., and Scott Paine, Raymond), and two pretty millineresses, portrayed by Maureen Allen, Columbia, Md. and Susan Cunningham, Newcastle.

Through many mixed identities, disguises, misleadings and much slapstick, the play reaches its climax in a hysterical restaurant scene in Act III. By the end of Act IV, after lovers are reunited, and identities are sorted out, the merchant of Yonkers finds himself with none other than the matchmaker herself.

Other cast members include Chris Bickford, Crowell, Conn., as Malachi Stack; Liz Perry, Medomak, playing Emengarede; Liz Sugarman, Providence, R. I., as Flora Van Huesen; Greg Dayton, Newton, Mass., in the role of Ambrose; and Bob Fiske, Bethel, plays Rudolph. In supporting roles are Tom Cole, Brunswick; Luis Rosado, New York; Todd Fiske, Bethel; Ray Rumowicz, Somerset, N. J.; and Nathalie Blanc, Paris, France. The Stage Manager is Todd Fiske. Direction is by Carol Fiske, Gould Academy faculty

#### NEWS FROM THE BETHEL Water District

The water district trustees met with the selectmen Monday night to discuss points of mutual interest. Other similar meetings are scheduled for August.

There has been a difference of views develop between the district trustees and town over a proposed amendment water district charter. Key points at issue which were discussed at Monday night's meeting were (1) a change to make trustees an elected body expanding the size of the board to five members from its three person size. The water district trustees feel that to oversee, a basically to operation such as the water district requires people with skills and experience that is obtained through the time process. The pretty municipal situation of deteriorated systems and the painful to make large capital expenditures seems in the trustees to favor a non-political body to paper over the problem while in office at the expense even worse conditions and expense in the future.

Replacing water main in Bethel, a major water district project this year was completed May 6. A one inch plastic pipe replaced with eight inch iron pipe. By replacing which chronically leaked, water flow has dropped from cubic feet per day to 8-900 feet per day which in turn reduced electricity costs for pumping water pressure in the area. The project was \$8,800; the installation and procurement of pipe done after competitive bids been submitted.

This week the water district engaged in the biannual flushing program. This is done to check the operating condition of the hydrants. It takes three evenings to do this work. Work time usually involves hours a day from 9 p. m. to 11 p. m.
